GARDEN STATE OF THE WEST.

THE ILLINOIS CENTRAL RAILROAD COMPANY

HAVE FOR SALE

1,200,000 ACRES

OF

RICH FARMING LANDS

1N

TRACTS OF FORTY ACRES AND UPWARD,

LONG CREDIT AND AT LOW PRICES.

MECHANICS, FARMERS AND WORKINGMEN.

ILLINOIS CENTRAL RAILROAD COMPANY.

Which, as they will perceive, will enable them, by proper oner gy, perseverance and industry, to previde comfortable and per manent homes for themselves and families, with, comparatively speaking, very little capital:

LANDS OF ILLINOIS.

No State in the Valley of the Mississippi offers so great an in-document to the settler as the State of Hinois. There is no por-tion of the world where all of the conditions of climate and soll so admirably combine to produce these two great staples, corn and wheat, as the prairies of Hinois.

RICH ROLLING PRAIRIE LANDS.

The deep rich loam of the prairies, is cultivated with such wonderful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illi-nois is about equal to that of Englandband the soil is so rich that it will support twenty midlons of people.

EASTERN AND SOUTHERN MARKETS.

These lands are contiguous to a Railroad 700 miles in length, which connects with other roads, and navigable lakes and tweez, thus afording an unbroken communication with the Eastern and Southern markets.

APPLICATION OF CAPITAL.

APPLICATION

Thus far capital and labor have been applied to developing the cell; the great resources of the State in Coal and from are almost untouched; the invariable rule that the mechanic arts dourish best where food and fuel are chespea, will follow as an early day in illimois; and in the course of the next ten years the time of the case warrant the belief that as

natural laws and necessities of the case warrant the belief the least FIVE HUNDRED THOUSAND PEOPLE will be gaged in the State of Illinois in the various manufacturing

RAILROAD SYSTEM OF ILLINOIS.

Over \$100,000,000 of private capital have been expended on the railroads system of liftinois. Inasmuch as part of the income from several of these works, with a valuable public fund in lands, go to diminish the State expenses, the taxes are light, and must, consequently, every day decrease.

THE STATE DEBT.

PRESENT POPULATION.

The State is rapidly filling up with population: 365,026 person having been moded since 1850, making the present population 1,719,495—a ratio of 182 per cent in ten years.

AGRICULTURAL PRODUCTS.

The agricultural products of lillinois are greater than those of ny other State. The products sent out during the past year ex-seded 1,500,000 tuns. The wheat crop of 1800 approaches 5,000,000 bushels, while the corn crop yields not less than 10 000,000 bushels.

FERTILITY OF SOIL.

Nowhere can the industrious farmer secure such immediate results for his lab or as upon these prairie soils, they being compared of a deep, rich loam, the fertility of which is unsurpassed by any on the globe.

TO ACTUAL CULTIVATORS.

Since 1854 the Company have sold 1,300,000 acres. They sell only to actual cultivators and every contract contains an

agreement to cultivate. The road has been constructed through

there ands at an expense of \$30,000,000. In 1850, the

population of the forty-nine counties through which it pusses was

making the whole population 814,891-a gain of 143 per

EVIDENCES OF PROSPERITY.

EDUCATION. Mechanics and Working Men will find the Free-School system encouraged by the State, and endowed with a large revenue for the support of schools. Their children can live in sight of the Church and School-House, and grow up with the prosperity of the leading State in the great Western Empire.

PRICES AND TERMS OF PAYMENT.

The prices of these lands vary from \$6 to \$25 per acre, according to location, quartity, &c. First-class farming lands sell for about \$10 or \$12 per acre; and the relative expanse of subduing prairie land as compared with wood and is in the ratio of 1 to 10 in favor of the former. The terms of sale for the bulk of these lands will be

ONE YEAR'S INTEREST IN ADVANCE,

at aix per cent per annum, and six interest notes at six per cent, payable respectively in one, two, three, four, five and six years from date of sale; and four notes for principal, payable in four, sive, six, and seven years from date of sale; the contract stipulating that one-tenth of the tract purchased shall be fenced and cultivated each and every year, for five years from the date of sale, so that at the end of five years one-half shall be fenced and under collivation.
